

SENATE RESOLUTION #SR011

A RESOLUTION TO INCLUDE MIRRORS INSIDE THE PARKING STRUCTURES

Short Title: Mirror Resolution (Public)

Introduced by: Senator Akers

Sponsored by: Senator Akers

Co-Sponsored:

Reading: **Version Date:** February 18th 2016

Referred to: PRESIDENT OF THE SEANTE

1 **WHEREAS**, currently the parking structures are where a majority of students park. Seeing that
2 students are constantly coming and going, the parking structures are continually
3 busy. This can be a safety hazard for people walking in the structure and cars
4 driving.
5

6 **WHEREAS**, it is very hard to moderate speed inside of a parking structure and some students
7 take advantage of that. They speed furiously up and down the ramps, which can be
8 very dangerous. If we were to implement these mirrors it would help drivers be
9 more cautious and hopefully encourage them to slow down when inside the
10 parking structure.
11

12 **RESOLVED**, the university takes these factors into consideration and decides to implement
13 this resolution and place mirrors in the parking structures.
