Version Date: March 3, 2016

Referred to: President of the Senate.

WHEREAS, as it stands, the drainage grates next to Prescott often come loose. This poses a safety threat to students who expect the ground to be flat, and are instead met with an unexpected obstacle.

WHEREAS, a student was recently injured in a long-boarding accident as a result of a loose drainage grate.

RESOLVED, the Associated Students of Grand Canyon University (ASGCU) Senate recommends that the University install secure drainage grates on the pathway next to Prescott Hall in place of the ones currently there.
